Operations

OPERATIONAL REPORTING

COMPLIANCE WITH THIS PUBLICATIONS IS MANDATORY

ANGI 10-206, 1 July 1997, is supplemented as follows:

1.3. The Office of the Adjutant General, California National Guard, needs to be aware of significant incidents involving CA ANG personnel and/or property. Not all occurrences of this nature are reportable under existing directives, or if reportable, do not in all cases provide for notification to the Office of the Adjutant General (OTAG). It shall be the responsibility of the organization, unit, air or station commanders to notify OTAG of any accident or incident that is of a significant proportion, or that, in the Commander's opinion, may have an adverse affect on the California Air Guard. Personal good judgment would dictate whether or not an incident is reportable.

2.6.1.1. Do not include OTAG in required voice conference bridges for any HOMELINE, BEELINE, and PINNACLE reports originated by a CA ANG unit. Consider OTAG required voice reporting as a collateral requirement. Telephonic reports will be routed to the Chief of Staff (Air), OTAG during normal duty hours and to the OTAG Staff Duty Officer during non-duty hours.

*2.6.2.1. (Added) For all reports requiring a record copy, include OTAG as an information addressee. Use the following AUTODIN address for OTAG:

TAG CA SACRAMENTO CA//CAJS-PO//ANG-CS/DO//

*2.11. Report a disaster relief or any other emergency assistance request by local civil authorities directly to OTAG Joint Operations Center during duty hours or the OTAG Staff Duty Officer during non duty hours. The Joint Operations Center will complete any further reports to NGB-ARO-OMC and ANG/XOOP. Initiate Tempest Rapid reporting only if the unit's operation is federalized (MAFFS).

*3.4. For all unit level record copy reports, include OTAG AUTODIN address:

TAG CA SACRAMENTO CA//CAJS-PO//ANG-CS/DO//

DANIEL J. GIBSON
Major General, CA ANG
Commander
